# Story of Minesh

Minesh is from a small hamlet called Umerkui in Vansda taluka. His parents are marginal farmers with just 1 acre land. For most part of the year they are engaged as farm labor in neighboring rice fields or mango nurseries. Young Minesh only knew Kukna (native dialect) when he joined in pre-school of Shantaba Vidyalaya. He however had a spark from the word go and has stood first in his class for 3 years in a row. Not only does he speak and read decent English, Minesh is also doing well in athletics and Taekwondo, where he has gone for District level inter-school competitions. The boy dreams of getting into a prestigious Engineering College. That will make his favorite relative very proud, he says hugging his grandmother. She had once challenged Minesh's father that little Minesh could never live without her in a hostel. He misses her till date, but has proven that he has the determination to succeed.
